Prof. Philipp Staab

Faculty of Humanities and Social Sciences
Department of Social Sciences
Sociology of Future of Labour

Expertise

Prof. Staab's research combines topics of labor, social structure analysis, sociology of technology and political economy in a contemporary analytical perspective. Currently, Prof. Staab is particularly involved with questions of the political shaping of digital capitalism, the connection between digitalization and sustainability, as well as the role of critical infrastructures for the future viability of modern societies. The professor pursues a theory-oriented, present-diagnostic sociology in the context of social change, conflict, and inequality, which always seeks dialogue with the public.

Scientific Services

- consulting,
- drafting of studies and
- policy papers as well as presentations

on important current topics in the areas of society, politics and economics, in particular digitalization and sustainability as well as work. The focus is on future developments of society as well as political and economic options for action.

Testimonials

- Organizing and conducting several conferences with a large political foundation
- Writing a policy study for a large labor union
- Advising members of parliament, ministries as well as the European Commission
